EDUCATION

Bachelor of Engineering in Computer Science

Jain College of Engineering and Technology, Hubballi | May - 2024

Pre-University Course (PUC)

P. C. Jabin Science College, Hubballi | Mar - 2020

Secondary Education / High School

Dr. GV Joshi Rotary English Medium High School, Hubballi | Mar – 2018

TECHNICAL SKILLS

Programming: Core Java, C++, Object-Oriented Programming Concepts

Web Development: HTML5, CSS3, JavaScript, React.js

Design: Figma

Server-Side Development: Node.js, Express.js, RESTful APIs

Database Management: MongoDB (NoSQL), SQL (MySQL 8)

API Testing: Postman

Tools: VS Code, Git/GitHub

Documentation: Microsoft Word, PowerPoint

EXPERIENCE

Varcons Technologies Pvt. Ltd, Bengaluru

Full Stack Web Developer Intern | May 2023 – Aug 2023

- Designed and developed responsive web pages for a Wildlife Conservation site using React.js, HTML, CSS, and JavaScript.
- Translated client specifications into intuitive and visually appealing user interfaces.
- Optimized frontend performance and ensured cross-browser compatibility.

Deshpande Start-ups, Hubballi

Full Stack Web Development Intern | Aug 2023 - Oct 2023

- Developed a full-stack e-commerce platform aimed at empowering local artisans by integrating frontend and backend systems.
- Collaborated with a team to design the database schema and ensure seamless user experience across the application.
- Implemented the project using the MERN stack (MongoDB, Express.js, React.js and Node.js).

PROJECTS

Parallax Single-Page Website

- Built an interactive Parallax scrolling website using React.js, Framer Motion, Styled Components, and React Router DOM.
- Designed a smooth user experience with animated transitions and a fully responsive layout.
- Created a custom responsive navbar that changes background colour on scroll without using external UI libraries.
- Implemented an aesthetic dark theme with a primary red accent colour for a modern look.

Integrated Smart Road Safety System

- Developed an innovative solution integrating real-time weather monitoring and automatic hump detection to improve road safety and prevent accidents.
- Selected for the prestigious 47th KSCST State Level Project Exhibition and received recognition for its impact on driver safety.

Contest-Based Game Application

- Developed a full-stack contest-style game using MongoDB, Express.js, React.js, and Node.js.
- Implemented user registration, login, and real-time score tracking, ensuring secure data handling through JWT authentication.
- Designed the frontend with React.js and styled-components for a clean and responsive user interface.

Website Cloning Projects

- Cloned a responsive food delivery website Knight-Bite, replicating features like menu navigation.
- Built a clone of the bike rental service website Royal Brothers, implementing responsive layouts and dropdown menus.
- Created a clone of Amma's Pastry website with an intuitive UI.

Vehicle Service Management System

- Developed a software solution to streamline vehicle service operations.
- Features: Appointment scheduling, inventory tracking, and reporting.
- Used HTML, CSS, JavaScript, MySQL, and PHP.

CERTIFICATIONS & TRAINING

Full Stack Development Training

Q Spiders, Bengaluru | June 2024 – Present

- Gained hands-on training in Core Java, SQL, HTML, CSS, JavaScript, React.js, and Object-Oriented Programming (OOP).
- Solved Data Structures & Algorithms (DSA) problems to improve coding efficiency and problem-solving skills.
- Built real-world projects and participated in mock interviews to enhance technical and interview readiness.
- Strengthened expertise in frontend development, focusing on React.js and SQL-based applications.

SKILLS AND INTERESTS

Soft Skills:	Organizational Skills, Presentation, Interpersonal Communication, Cross-Functional, Collaboration, Adaptability, Problem-Solving
Languages:	English, Kannada, Hindi, Konkani
Hobbies:	Cooking, Cricket, Travelling, Photography
